**FLOMET, LLC WINS VMA AWARD FOR CONTINUOUS IMPROVEMENT**

**DELAND, FLORIDA, November 22, 2013** - FloMet, LLC, an ARC Group Worldwide Company, has been awarded the Best Practices in Continuous Improvement Award from the VMA (Value-Added Manufacturing Alliance). VMA is a premier manufacturing alliance located in Florida. The VMA was founded in 1980 by manufacturers and is the voice of over 400 local manufacturers providing information, education and opportunities to help manufacturers grow and succeed. This year marks the 8<sup>th</sup> Annual Manufacturers Showcase held by the VMA and FloMet, LLC will be awarded the Best Practices in Continuous Improvement Award. This distinguished award is given to the company who has displayed the most successful efforts in continuous improvement and has achieved the greatest results from their manufacturing operations.

Mr. Jason Young, Chairman and CEO, said, "I am proud of the results FloMet has been able to achieve with their expertise in lean manufacturing. This award is a great example of the continuous improvement culture we have at the ARC Group companies and the importance lean technologies play in our manufacturing process. The FloMet team is very deserving of their recognition by VMA here."

During the award evaluation period, FloMet was able to substantially reduce manufacturing scrap by 25% and reduce inventory in capital dollars through a just-in-time approach by 10%, resulting in increased inventory turns. FloMet accomplished this through lean technologies which included the adoption and implementation of an organizational program referred to as 7S. The 7S program is a hybrid concept of 5S (Sort, Set in order, Shine, Standardize, and Sustain) with two important additions; Safety which must be of paramount concern, and Spirit to keep the forward momentum. The proven success in these fundamental approaches to lean manufacturing allowed FloMet to help decrease manufacturing costs and deliver more bottom line profitability to ARC Group Worldwide shareholders.

**About ARC Group Worldwide, Inc.**

ARC Group Worldwide is a diversified, global manufacturing company, as well as the unequivocal world leader in Metal Injection Molding ("MIM"). ARC was founded in 1987 and has a long history as a technology innovator in manufacturing. ARC has significant expertise in lean manufacturing and utilizes cutting edge technology such as robotics and 3D printing. ARC's mission is to bring innovation and technology to manufacturing. ARC's core manufacturing businesses are in precision components, flanges, fittings and wireless technology, through its operating subsidiaries, [www.FloMet.com](http://www.FloMet.com), [www.AFTmim.com](http://www.AFTmim.com), [www.Injectamax.com](http://www.Injectamax.com), [www.TeknaSeal.com](http://www.TeknaSeal.com), [www.GeneralFlange.com](http://www.GeneralFlange.com) and [www.ArcWireless.net](http://www.ArcWireless.net).
